## Certified New & Refurbished IT Equipment

US Logic is a leader in the new and refurbished IT industry.

Whether you are looking for an entire configuration or simply adding memory or feature cards to an existing machine, US Logic can provide quality new or refurbished hardware that is guaranteed for maintenance, with same day shipping available.

US Logic provides a reputation for delivering quality midrange- to high-end storage solution products, servers, and networking equipment.

Our extensive inventory of new and remarketed product is provided up to 50-75% off of list prices!

US Logic offers technical consulting services including **ENGINEERING** and **TECH STAFFING** to help you meet your project goals.

All refurbished equipment is fully tested, configured and packaged to the manufacturer's standards.

Leasing and short-term rentals are available. We're also interested in your trade-in and excess equipment.

**Call today for your midrange server, networking and storage hardware needs!**
